2023 Junior 7-A-Side Championships Wrap

Article by Ben Krikstolaitis

There was a massive injection of energy and enthusiasm into the brilliant sport of bowls over the last weekend. Club Dubbo held the Junior 7-A-Side Championships and it was an amazing event showcasing the huge talent within our junior ranks.

120 junior bowlers from all around the state, including a team from the ACT, competed for one of the most coveted prizes in junior bowls, the Junior-Interzone Championship. The competition started with a coaching

session on Friday on a cold, rainy and windy day. Sectional play started early on Saturday morning in icy, windy conditions and finished in bright, warm sunshine on the Sunday.

All of the players had to adjust to three very different weather conditions on each day and it made for some really exciting games. 7-a-side formats are often close and so it proved over all three days. The format involves singles, pairs and fours games held simultaneously for

each Zone creating challenges for each player.

In the end it was Zone 16 (Illawarra) who took out the overall standings and the gold medals over two of the three formats. Zone 12 (Sydney South-West) came in second with the Zone 4 locals (Mid-West NSW) coming in third.

The individual results were as follows:

Singles

Gold

Travis Moran
(Zone 16 – Illawarra)

Silver

Ryan Klem
(Zone 12 – Sydney South West)

Bronze

Tom Rich
(Zone 4 – Mid West NSW)

Pairs

Gold

Jacob Aitken & Flynn Cooper
(Zone 16 – Illawarra)

Silver

Billy Waite & Brendan Ford
(Zone 12 – Sydney South West)

Bronze

Daniel Paul & Lachlan Thompson
(Zone 13 – Sydney South East)

Club Dubbo is a huge supporter of junior bowls and once again put on an amazing event for everyone. The weather conditions may have been often unkind but that wasn't the case for the volunteers and staff of the club.

This was the final event for many of our 2023 juniors with many state representatives moving on to the next phase of their bowling career. The future looks exceptionally bright and some of the younger bowlers are sure to be giving the NSW Junior Committee plenty to consider for future events!

Juniors Enjoy Day Out At Inter-Zone Coaching Clinic

Sheets of rain and a cold blustery wind greeted all the junior players and their supporters on Friday for the introductory coaching session and drills that lead into the Inter-Zone 7-A-Side Championship. While the conditions were tough, our junior bowlers were tougher as they eagerly jumped onto the greens.

The players gathered for an address from Jackaroo and Pathways Coach, James Reynolds in addition to members of the State Selection and State Juniors Committee, each providing invaluable advice and insights into the game. Immediately following this it was straight into action with a series of fast-paced, single bowl drills. The players ran up and down the green keeping warm in the cold wind while showing off their remarkable skills.

It was fantastic to see the 'older' junior bowlers help guide the first timers through teamwork, discipline and all of the attributes needed to be a top-level player. The volunteers and coaches watched closely to witness

the decision making skills, focus and commitment of the players.

It was a great lead in to the competition with new friends being

made and old friendships renewed. Team play brings out the best in sportspeople and these drills helped reinforce that.

State Umpires Committee

Keeping things Crystal Clear

Q: Coin toss or roll a bowl to decide who has the mat. Which is correct?

Laws: Conventions 1. References to 'must' and 'will' within these laws mean that the action is compulsory.

Law 5.2 Tossing for opening play

5.2.1. The coaches in a side game (or, in their absence, representatives of the sides), skips in a team game or opponents in Singles must toss a coin.

5.2.2. The winner of the toss must choose whether to:

5.2.2.1 place the mat and then deliver the jack and the first bowl; or

5.2.2.2 tell the opposing player to place the mat and deliver the jack and the first bowl (the opposing player cannot refuse).

Law 28 A drawn game in a knockout (eliminating) competition

28.1 In a knockout (eliminating)

competition with a fixed number of ends, if the scores are equal when all ends have been played, an extra end must be played to decide the result.

28.2 The coaches in a side game (or, in their absence, representatives of the sides), skips in a team game or opponents in Singles must toss a coin and the winner will decide who must play first as described in laws 5.2.2 and 5.2.3.

A: A coin must be tossed to decide who plays first for the start of play, law 5.2.1, and who plays first in an extra end, law 28.2.

As the word must is in both law 5.2.1 & 28.2, there are no other options, as tossing the coin is compulsory.

Q: Who is responsible for the scorecards?

Law 40.1.7 The skip must:

40.1.7.3 record, on the score card,

all shots scored for and against both teams as each end is completed;

40.1.7.4 compare and agree the score card with that of the opposing skip as each end is completed;

40.1.9 For domestic play, Member National Authorities can transfer the skip's duties described in law 40.1.7 to other members of the team. However, they must make sure that the duties are transferred to players whose positions, in order of play, are the same in each team.

Singles 42.3 When each end has been completed, the marker must:

42.3.1 record the score on the score card.

DR 3.2 Skips duties relating to scorecards (law 40.1.9) For Domestic Play in Australia, all duties relating to the scorecard set out in law 40.1.7 (including keeping and completing the scorecard) shall be performed by:

State Umpires Committee

Keeping things Crystal Clear

3.2.1 In Singles; the marker is responsible for keeping, completing and dealing with the card (as per law 42),

3.2.2 In Pairs; the skip of each team

3.2.3 In Triples; the skip of each team.

3.2.4 In Fours; the second of each team.

A: The skip in Triples & Pairs, the Second in Fours must record on the score card all shots for and against both teams as each end is completed; and compare and agree the score card with that of the opposing skip or second.

Note: Leaving blank spaces on a scorecard does make it hard to solve a discrepancy in the scores. However, following law 40.1.7.4, not leaving any blank spaces and the marker reading the scores every second end, eliminates mistakes with the score card.

Q: You are called as an umpire to measure at the head, as you pass the mat you notice it is 5cm short of the 'T'. What should you do?

Law 6.1 At the start of each end

6.1.4 After the first player to play has delivered the first bowl, no-one has the right to challenge the legality of the original distance of the mat line from the rear and front ditches.

A: You ignore the position of the mat, law 6.1.4, and proceed to the head to perform the requested measure.

State Championships

Over the period of the recent State Championships, a member of the State Umpires Committee (SUC) was present and visiting the three clubs hosting the Championships. The SUC members liaised with the appointed Officials, updating the Officials with the latest information and where possible demonstrating two new instruments available to Officials.

If you have any questions on any of the above law situations or the above equipment, please do not hesitate to contact the SUC at umpires@bowlsnsw.com.au.

Keno's Local Area Marketing Takes Off In FY 2023

Keno's Local Area Marketing program has reached new heights, with hundreds more venues running promotions and prizes ordered breaking the \$1 million mark in the 2023 Financial Year.

The uptake of Keno's in-venue promotions throughout the 2023 Financial Year is evidence of the growing popularity and proven efficacy of Local Area Marketing (LAM).

During the year, venues ordered more than 2,100 promotions – 47% more than in the 2022 Financial Year, during which just over 1,380 promotions were ordered.

What stands out most is how many venues started using LAM. During the year, almost 400 venues who hadn't previously tried it ran a promotion for the first time.

Customers were the big winners of Keno in-venue promotions. The total value of prizes given away through LAM was just over \$1 million.

And the time that promotions ran for was also significant. Promotions ordered ran for a total of 11,000 weeks, with an average of 5.27 weeks per promotion.

Keno's busiest LAM venue gave away more than \$11,000 in prizes to its customers, across 14 separate promotions.

The most popular prize ordered was the Weber BBQ (297), closely

followed by the Garden Care Kit (194), and Bunnings Gift cards. The Fishing Pack and Camping Pack were also in the top 10 prizes ordered.

The figures reinforce what venues had to say about LAM in Keno's 2022 customer survey. The results revealed 64% of venues believe in-venue promotions are appealing to their customers and almost 60% said their Keno sales increased during the promotional period.

There really is no simpler way to ramp up customer engagement with Keno than through Local Area Marketing.

Latest prize range is Keno's best yet

Keno's latest and possibly greatest in-venue promotion range has arrived and is ready for order now on Keno Nothing says, 'Summer is on its way!', like a super stylish Heston Blumenthal BBQ.

This state of the art BBQ is just one of the enormously appealing prizes in Keno's latest range, which includes enduring prizes that will increase customer engagement during the summer months and beyond.

We're talking about the latest techno gadgets, like the Playstation 5 Console and VR2 Digital Edition, DJI Drone, Apple Watch Ultra, and new Go Pro plus hot kitchen appliances like the Delonghi Lattissima One and Breville Air Fryer.

If you want to build the excitement,

order a Major/Minor Prize Bundle, consisting of four minor prizes and one major prize run over five weeks, with the major prize given away in the final week. The new Red Balloon gift cards are ideal for weekly minor prizes.

E-gift cards to please every customer

A prize certain to appeal leading into the Christmas season is Holiday and Hotels Gift Cards, which allow winners to choose from more than 800,000 hotels in Australia and around the world, plus flights and experiences.

Keno recently moved from a limited supply of physical gift cards to a wider choice of electronic gift cards, creating even more options to meet customers' needs.

Another advantage of the shift to e-Gift cards is that it removes the risk of them being lost: e-Gift cards are instantly delivered to winners by email and can be printed and physically presented to them as well. And the lead times are shorter than for other prizes.

The increased range includes newly launched brands like Our Cow cards – the modern, meat raffle alternative – plus AFL, NRL, and Super Cheap Auto cards.

Don't delay – lead time is usually four to six weeks. Order your promo today by visiting Keno Connect <www.kenoconnect.com.au>.
